KEY PROJECTS

- **Sound Simulator**   **(2019)**

A mini application used to produce instrumental sounds without the use of vocals. We can compose music, beats and rhythms.

- **FIFA 19 Player Data Analysis**   **(2020)**

A data analysis project using Python in which I performed data cleaning, data preparation, data analysis and visualisation on the dataset. Having performed these operations, it concluded a lot about the players and their approach in the game.

SKILLS

- **(Proficiency):** C/ C++, Python, Web Development, Data Science, Microsoft Office
- **(Familiarity):** Java, Unix, Bash, Git
- **(Personality):** Leadership, Adaptability, Computer & Communication Skills, Team Work
- Elementary Proficiency in Deutsch Language

EXTRA – CURRICULAR ACTIVITIES
